The new reference

Designed to match any decor and sized to fit common single gang outlet boxes in Europe and the US.

Integrates with KNX, Crestron[®] as well as Lutron[®], making Fibonacci suitable for luxury homes **all over the world.**

Your personal touch

Configure the multitouch function to **control anything at home**. Touch more than one surface at the same time and the room dims into the right scene, music starts playing, the temperature rises and the curtains close. **Ready for a cozy evening.**

An internal temperature sensor discretely reports the room temperature to the home automation system.

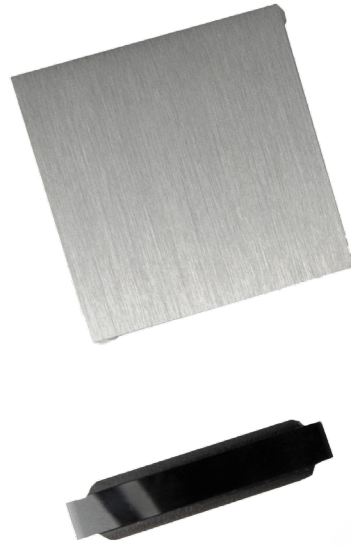

The multicolor LED in the middle can be programmed with any color that pleases you. It is used for status feedback or simply for you to find Fibonacci in the dark.
